## SUMMARY

Computer Science undergraduate with **2.5+** years of experience in **Go** backend development and **Flutter** development. Experienced in building responsive mobile apps and scalable APIs using Golang, Flutter and Rest API. Strong problem-solving mindset sharpened through competitive programming and a passion for clean, scalable architecture.

## TECHNICAL SKILLS

**Languages:** Go, Dart, Python, C, C++, Java, SQL

**Frameworks:** Flutter, Echo(Go)

**Libraries:** GORM, BLoC, Provider, GetX

**Databases:** Firebase, PostgreSQL, MySQL

**Developer Tools:** Git, Github, Docker, Postman, VS Code, Android Studio, Xcode, Play Console, Github Actions

## PROJECTS

### Profile Verification (Golang) | Go, Python, Echo, PostgreSQL, GORM

GitHub

- Secure Go-based backend for user signup, login, profile management, and account security.
- Supports OTP/email verification, JWT authentication, file uploads, and face-recognition-based identity checks.
- Includes messaging and rating features for verified users, with modular services and handlers for easy extension.

### Profile Verification (Flutter) | Flutter, Dart, Rest API

GitHub

- Flutter-based app to verify user profiles with secure authentication and profile management.
- Offers login, signup, profile view, inbox messaging, profile search, and rating features.
- Features a modern carousel home screen and bottom navigation for quick access to key sections.

### Islamic Lifestyle (Flutter) | Flutter, Dart, Firebase, Rest API, Google Maps

GitHub

- Flutter-based Islamic lifestyle app offering Quran reading, prayer times, and daily supplications in one place.
- Includes Qibla compass, mosque finder via Google Maps, tasbih counter, zakat calculator, and Hijri calendar.
- Supports personalized reminders and notifications using Firebase to enhance daily worship and routines.

### Bhola Student Welfare Association (Flutter) | Flutter, Dart, Firebase

LiveLink

- A Flutter-based BSWA member portal providing separate experiences for members and admins.
- Members can browse yearly committees, view organization info, and see structured content across sessions.
- Admins manage member details and portal content securely through Firebase-backed screens.

### Money Management (Golang) | Go, Echo, PostgreSQL, GORM

GitHub

- Money management backend in Go providing RESTful APIs for tracking books, users, and transactions.
- Supports user authentication with JWT middleware to secure financial data operations.
- Configurable service structure with clear separation of routes, handlers, models, and environment-based settings.

### Money Management (Flutter) | Flutter, Dart, Rest API

GitHub

- Money management Flutter app for tracking personal finances across mobile and desktop platforms.
- Secure authentication with login/signup screens and user-specific data via backend API integration.
- Organize books (accounts) and record, view, and manage transactions with a clean, responsive UI.

### Task Manager (Golang) | Go, Echo, PostgreSQL, GORM

GitHub

- A simple Go-based REST API for managing tasks with full CRUD operations.
- Includes user registration/login with JWT authentication and middleware-protected routes.
- Uses a modular structure (controllers, models, routes, utils) for clean, maintainable backend code.

### Task Manager (Flutter) | Flutter, Dart, Rest API

GitHub

- Flutter-based cross-platform task manager for organizing and tracking tasks.
- Clean MVC-style structure with models, controllers, and reusable UI screens.
- Extensible architecture with networking, utilities, and shared widget components.

**Technology Services (PHP) | PHP, MySQL, HTML, CSS, JavaScript**

LiveLink

- Technology Services is a PHP-based web portal for users to request and track technology-related services online.
- It supports secure user accounts with OTP email verification, online payments, and real-time service tracking.
- Admins can manage users, approve requests, and generate detailed service and payment reports.

**EDUCATION****Patuakhali Science and Technology University**

2022 - Present

*Bachelor of Science***BCIC College**

2018 - 2020

*Science**Higher Secondary Certificate***Charfasson Govt. Model T. Baret Secondart School**

2016 - 2018

*Science**Secondary School Certificate*
